PLAYING CARDS
ARE DIPLOMATS

And Threats to Renew the War Are Not Taken Very Seriously.

BOUNDARY MAP NOW

May Be the Cause of Breaking Off All the Peace Efforts.

LONDON, Jan. 2.—Peace negotiations will be broken off according to Dr. Danoff, chief of the Bulgarian delegation, unless a map now being prepared by Turkey to show the proposed boundary between Bulgaria and Turkey is in accordance with terms laid down by the allied countries.

The danger of resumption of hostilities, however, is regarded as eliminated and threats of renewal of war may be taken as merely the playing of cards in the diplomatic game.

Clerk Harris Rules That There is No Provision for Temporary President.

NO SESSION TODAY

House Organizes by Electing Republican-Caucus Nominees and Adjourns.

Is Complimented for Efficiency Attained by the National Guard.

Among the letters which have been received recently by Adjutant General C. D. Elliott is one of especial favor to the head of the West Virginia militia. It is from Brigadier General A. L. Mills, of the general staff, for the chief of staff, division of military affairs, Washington, D. C.

Part of the letter indicates that the preparation of the war department is shown for the carrying out of General Elliott's primary endeavor in bringing the army in this state up to a model of efficiency, by first getting good arm equipment of them and of teaching the soldiers marksmanship. This part of the letter follows:

"I am directed to state that the secretary of war is gratified to note the relatively high standard which has been attained by the infantry organizations of your state. This is particularly so as to sanitation and the rifles. The condition of the latter is most satisfactory and shows that the officers and men appreciate that on the care of the rifle depends that value of fire action in battle."

Financial Institutions All Enjoy a Splendid Growth and Fine Profits.

MONEY BAROMETERS

Of the Community Give Good Idea of the Rapid Development of the City.

All the banks here as barometers of financial, industrial and commercial advancement show that Clarksburg had great prosperity the year just ended. Every bank in the city did a larger and more profitable business than the year previous and they show that there is more wealth in Clarksburg than ever.

The Empire National Bank made sixteen and one-half per cent on its capital stock and it had a great gain in deposits, the amount of gain being \$360,000. Out of its earnings it paid its stockholders the regular three per cent dividend every six months and placed \$25,000 to the surplus fund. The year was one of great prosperity, the best by far in the history of the institution.

The Union National Bank recently moved into its skyscraper, where even more modern methods are being employed owing to the fact that the bank equipment and banking rooms are strictly up to date. The institution made thirteen per cent on the capital stock and would have made still more if it had not had an average of \$150,000 tied up in the building under construction and not bringing in any revenue. The usual four per cent dividend every six months was paid the stockholders. The bank deposits increased \$329,000 over those of last year. Sixteen thousand dollars was placed to the surplus fund. The year's business was large and most satisfactory with the outlook bright for a better year just begun.

The Farmers Bank enjoyed great progress and prosperity along with the other banks of the city. It made fourteen per cent net on its capital stock, of which six per cent was paid to stockholders as dividends and eight per cent placed to the surplus fund. The deposits show an increase of eighteen per cent the year ended. The stockholders as well as the general public are pleased to know that the institution is progressing nicely and has an immediate bright future, the assurance being that it will keep pace with the growth of city and county.

The Home Bank for Savings in its new quarters at the corner of West Pike and South Third streets looks forward to the best year of its history. With more spacious quarters and better equipment the institution purposes to enlarge its business greatly and to render even better service, if possible. The Home Bank had an excellent year just closed—the best it ever had. The deposits increased \$150,000 and the percentage made on the capital stock was twelve. The usual three per cent dividend every six months was paid. A neat sum was carried to the undivided profits account.

Announcement is made that the Lowndes Banking and Trust Company had a most excellent year and is enjoying great prosperity. The institution is constantly growing and its list of patrons, consisting of many townsmen, is large and growing at a rapid rate. The institution is a leading one in banking circles and its long established reputation for reliability and efficiency as well as courtesy and accommodation makes it one of the most popular savings banks in the state.

The West Virginia Bank had an especially successful year, its deposits increasing approximately \$100,000. While it did not declare a dividend, it added a very substantial sum of money to its undivided profits. The year was one that gratified the bank stockholders and officers. Its many patrons are well pleased with the high degree of success attained through the efficient and courteous cashier, Richard A. Farland, and other officers of the institution, and they look to the year just begun as one that will mark even more signal enlargement and success of the institution's business.

The three national banks will hold their annual stockholders' meeting Tuesday, January 14, to elect directors and officers. The West Virginia Bank will hold its annual meeting (Continued on page eight.)
